

EnviroSort

Recycling education for schools and community groups in Worcestershire and Herefordshire.

Severn Waste Services process all of the green wheelie bin recyclable materials from households in Worcestershire and Herefordshire. Our Materials Reclamation Facility, EnviroSort, is situated at Woodbury Lane, Norton, Worcestershire, WR5 2DF.

We recognise that education is key to ensuring that we recycle as much as possible across the two counties. Why not take advantage, therefore, of a **free** visit to EnviroSort to find out what happens to your green wheelie bin recyclables once they are collected.

EnviroSort has a purpose built classroom, from which a DBS checked Education Officer will lead the visit.

School visits

- Last 2 hours (longer sessions may be available upon request)
- Accommodate up to 30 students per visit
- Risk assessments provided
- Learn about recycling and see the facility in operation from a viewing platform
- Take part in activities
- Coach parking available
- Toilets within the education room
- Lift access if required
- Hot drinks provided for staff
- Transport subsidised once the visit has taken place.

Community group visits

- Last approximately 1½ hours
- Accommodate up to 30 people per visit
- Learn about recycling and see the facility in operation from a viewing platform
- Hot drinks provided on arrival
- Free visitor parking
- Toilet facilities
- Lift access if required

If it is not convenient for your school or community group to come to EnviroSort, the Education Officer may be able to deliver the presentation at your location. This is still free of charge.

If you would like to book a visit to EnviroSort, or you require any further information, please contact:
