

Village Hall Report

I am pleased to report that following the Xmas/New Year shutdowns work is again progressing normally, we have just taken delivery of the new roofing joists and have decided to provide heavy duty carpet tiles floor covering in the new meeting room, and a Grey heavy duty painted floor finish in the storage areas. Obviously, the current weather conditions are not helping much, but both builders (Carl & Richard) are pressing on as best they can... thank you and well done to them both!

You can of course see the last photographs of work completed on our parish website... thanks to Geoff and Eric!!
