

NDP Update

Since May 2017 the Parish Council has been preparing a Neighbourhood Development Plan.

The process governed by legislation has 43 steps we have had to take; I am pleased to report that the plan is made and is currently undergoing independent examination.

This is step 40, the only remaining items will be, step 41, if required, which will be to make any amendments suggested, step 42, a referendum will be held to be voted on by the Parish, and step 43 to publish the final plan.

The process should conclude over the next few months.
